Dixon, IL – The Illinois Department of Transportation announces the following update to the construction work on the US 67 Centennial Bridge over the Mississippi River between Rock Island and Davenport.

Weather permitting, all lane closures on the bridge are scheduled to be removed on Friday, October 30, 2015. General Constructors Inc. of the Quad Cities is making the final repairs to the bridge deck and will be placing final pavement markings prior to opening all four lanes on the bridge. The few remaining repairs for the \$3.35 million contract will be completed from underneath the structure without any lane closures.

Please slow down and use extreme caution while driving through all work zones.
